Career Objective

Seeking for a position in an organization, which provides me the opportunity to improve my skills and knowledge to grow along with the Organization objective.

Summary

- ✓ Good problem solving and the ability to identify alternative solutions.
- ✓ Ability to work under intensive deadlines.
- ✓ Ability to work independently and with a team.

Technical Skills

- ✓ Good Knowledge on Java OOPS Concepts like (**Encapsulation, Polymorphism** and **Inheritance**).
- ✓ Good Knowledge of Arrays, String Handling, Exception Handling and Collections Framework.
- ✓ Coding in Java, J2EE (Servlets, JSP) and JDBC.
- ✓ Implementation of Business logic in Service layer as part of application development.
- ✓ Good experience in working with HTML, CSS.
- ✓ Implemented Web Applications using **CRUD Operations**.
- ✓ Exposure to deploy the applications in Tomcat.
- ✓ Exposure to Small Sized applications Development Environment (Developed Small applications).

Educational Record

- ✓ 2019-2023, BTech in **Computer Science Engineering** passed out with an aggregate of 8.2 CGPA from **N.B.K.R Institute of Science and Technology** in Nellore, affiliated to JNTUA.
- ✓ 2017-2019, Intermediate from Board of Intermediate, passed out with an aggregate of 9.7 CGPA from **Sri Chaitanya Junior College**.
- ✓ 2017, SSC from **Prospero English Medium School** with 9.3 GPA.

Hobbies

- ✓ Active participation in Sports like Cricket and Volleyball.
- ✓ Reading holy books.
- ✓ Browsing Net and Binge Watch Netflix, Prime.

Certifications

- ✓ Web development course completed by Internshala.
- ✓ JAVA full stack course in Kosmik Technologies pvt.Ltd.

Technical Skills

Programming Languages	Java, J2EE (JSP, Servlet)
Application Frameworks	Spring, Spring Boot
DAOs	JDBC
Web Technologies	HTML, CSS
IDE	Eclipse, Notepad++, Visual Studio
Application Servers	Tomcat
Databases & SQL	MySQL
Operating Systems	Windows 11

Projects Summary

➤ Smart Expense Tracker

The Smart Expense Tracker is a Java-based console or GUI application that helps users manage and analyze their daily expenses efficiently. Users can record, view, and analyze their daily spending by category. It uses JDBC to connect to a MySQL database and applies core Java concepts like OOPS, Collections, and Exception Handling. The analytics module calculates monthly totals and top spending areas. I implemented CRUD operations, file exporting, and login validation. The project demonstrates both backend logic and real-world application design.

➤ Three Level Password Authentication

The Three-level password authentication system aims to provide a robust and multi-layered approach to security, reducing the risk of unauthorized access and enhancing user verification. The specific implementation details will depend on the organization's security requirements and the nature of the systems being protected. To provide more security compared to one level and two-level authentication systems.

Personal Information

Marital Status: Single.

Permanent Address: Ramapuram (v),
Chittamuru (m),
Tirupati (D),
Pin Code: 524127,
Andhra Pradesh.

Languages Known: English and Telugu.

Present Address: HYDERABAD.
